

INSTALLATION INSTRUCTIONS

1. Remove negative (-) cable from the battery terminal.
2. Locate the knock out on the face of the instrument panel and remove.
3. Install the hour meter into the opening and secure with "U" clamp, lockwasher and hex nut.
4. Locate your model and follow instructions given when connecting the hour meter.

(Models 1060, 1058, 1458 and 1460-02)

- a. Plug the harness onto the hour meter.
- b. Locate the plug of attachment drive switch. Take the single 8" (20.3 cm) red wire with the tab on the end and connect it to the red wire of the hour meter wiring harness with connector provided. After connection is made, cut off tab.
- c. Fasten the black wire of the harness to one of the mounting screws on the throttle control to ground.

(Models 1660, 1666-01, -02, -03, -04, and 2087-01, -02, -03)

- a. Locate the red and black wires with tabs of the tractor wiring harness that are taped back.
- b. Loosen these and plug onto the hour meter. See Fig. 1 for hook up.

(Model 1886S-05, -06)

- a. Plug the wiring harness provided in the kit onto the hour meter.
- b. Locate the "Gray" wire that leaves the ignition switch.
- c. Connect the gray wire to the red wire of the wiring harness with connector provided.
- d. Fasten the black wire of the harness to the mounting bolt of the choke control.
5. Connect the negative cable to the battery.

numbers indicates hours of use up to 60. The yellow hand with the inside numbers indicates hours up to 600.

EXAMPLE: (See Fig. 1) When figuring total hours, locate the yellow hand. If the hand is between the 120 and 180, the total hours of use would be 120 plus whatever the red hand reads. If the red hand is on 34 then your total hours would be 154.

When the red hand is in a red zone, check with the maintenance chart of your owner manual.

This kit contains the following parts:

1	1721038	Connector
1	1732263	Hour Meter
1	1734858	Harness

READING THE HOUR METER

The white hand indicates that the meter is running. The red hand with the outside
